

Technocopy Solutions

Intelligent Document Solutions

Improve your efficiency whilst driving down costs with Technocopy's smart solutions

office technology at its best

We are committed to providing the resources necessary to keep your company efficient and productive in today's competitive business climate.

Our unparalleled experience with digital document creation, workflow, and management allows us to design solutions which enhance your infrastructure and help you to control your document production costs.

Established in 1992, we have developed an enviable reputation within our industry sector. Our experienced and knowledgeable staff have a real understanding of the changing needs of our customers and provide bespoke, cost effective document solutions.

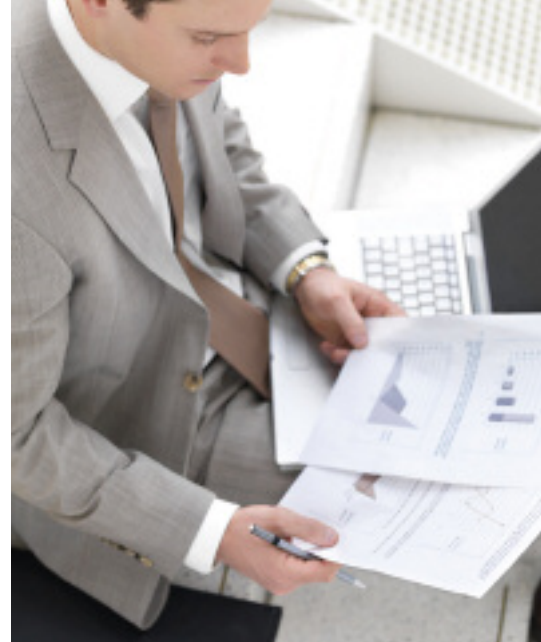

Unlike many of our competitors, who are limited by the equipment they manufacture, our independence means that we are free to use the expertise of various strategic partners to provide you with the solution that best meets your unique needs and objectives.

Our highly trained sales, service and support teams are dedicated to helping customers and building lasting relationships. Our aim is to provide maximum return on your investment, hassle-free installations, expert technical support and prompt on-site maintenance.

As one of the UK's largest independent suppliers of copiers, printers and MFP technology, we benefit from many scale economies which allow us to deliver highly cost effective document management solutions to businesses large and small.

Satellite Equipment

Our digital devices range from 15 to 136 pages per minute. They are easily networked and facilitate copying, scanning, printing and faxing all from your desktop.

Office Colour

Digital devices delivering professional colour finishes to your important documents as you require them, without sacrificing speed or functionality.

Full Colour

Digital machines to fulfil all of your colour requirements. These devices can produce high quality documents to help your company improve its visual effectiveness.

Multifunctional Devices

Digital workstations offering higher quality, greater font choices, faster print speed and options to scan to email and folder will improve your company's information flow.

Print Audits

Our print audits monitor and assess your current print/copy volumes and traffic.

Comprehensive reports provide information to help you control your print costs.

Finance Options

We have flexible finance packages to suit most requirements.

Using our partner channels we can offer very competitive finance rates to match your budgets.
